Joseph Tenle, of Jackson, in this county, says.—"I have cut 140 acres of grain and grass with the "New Yorker" I bought, of you with one span of horses—The Binders say they nover saw grain raked off bettee from any machine. As a Mower it worked first rates, and I counder it the best comined machine in use."

M. C. Bissel, Esq., of this city, after using one on his farm last season, says: "I believe it to be the best combined machine in existence; and farmers who consuit their own interest will buy no other unless some new one shall be favilted entirely in savance of any now in use."
